

MUTATIONS™

TEENAGE MUTANT NINJA

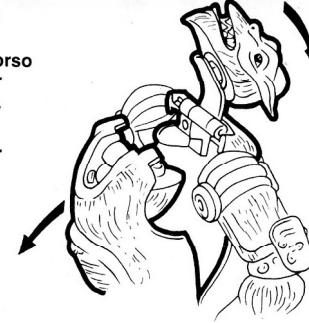

TURTLES®

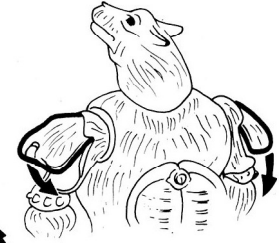

1. I'm wierd wolf Mutant Rahzar. Help me become a wild wolf pup.

2. Holding upper torso stable, pull down on lower torso to separate lower body from upper. Pull out hind tail from inside back.

3. Lift up Mutant wolf head and split open chest by pulling forward on neck.

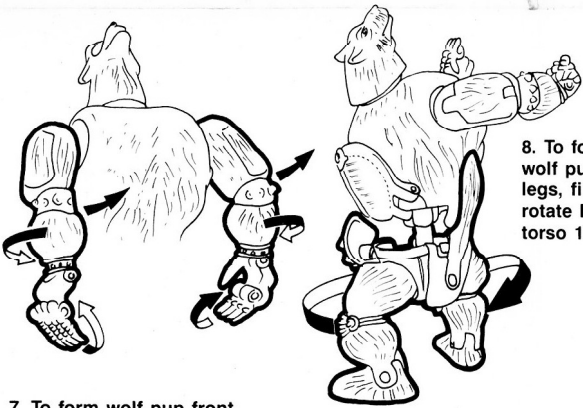

6. Lift up biceps, push armor pads in, and close biceps.

4. To switch Mutant wolf head to wolf pup head, pull out wolf pup head halfway, rotate head to face inside of body, and continue pulling back until head locks into place inside neck.

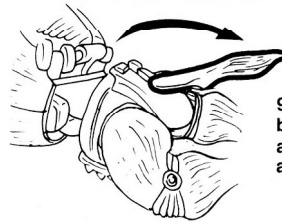

5. Tuck Mutant wolf head and shoulder armor pads inside body, and close up his chest.

7. To form wolf pup front legs, rotate arms back 180°, twist forearms so spikes face toward rear, and then twist hands so fingers face downward. Close hands by pushing in fingers to form wild wolf front feet.

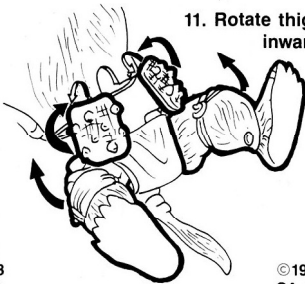

8. To form wolf pup hind legs, first rotate bottom torso 180°.

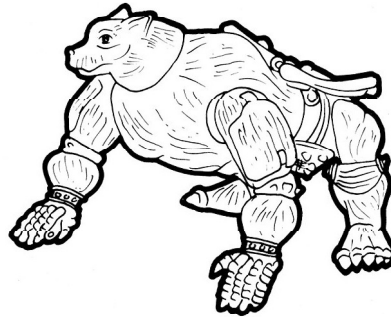

9. Point tail backwards and attach to post at rear.

10. Fold down chest plate halves, and fold down body attachment piece from chest and snap it into place behind tail.

11. Rotate thigh pads inward, attach them to small holes at bottom of stomach, and swing hind legs down.

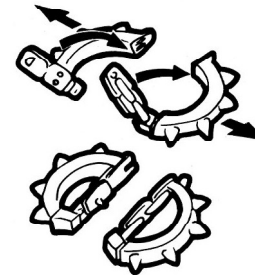

12. Now I'm a wild wolf pup. Feed me my pet food. To help me become Mutant Rahzar just reverse above steps or reference inside panel on package.

HOW TO MUTATE MUTATIN' RAHZAR'S SPIKED COLLAR:

Pull collar apart into two pieces, fold chain links up 180° and snap into place to form spiked knuckles.

Note: To put collar on wild wolf pup. Pull collar apart and snapback together around neck.

Please Note:

- Never force limbs into position. If parts don't fit comfortably, you may have missed a step. Always keep the limbs tucked in, positioned close to body.
- The enclosed mutation chart explains the evolution of these real mutatin' Mutants.
- Don't forget being a mutant master takes practice. The more you mutate, the better you become.
