

MUTATIONS™

TEENAGE MUTANT NINJA

TURTLES®

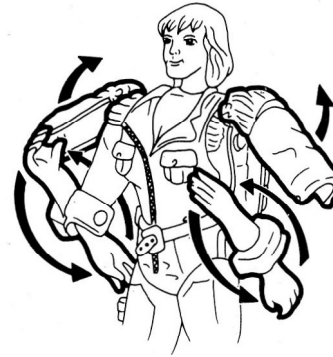

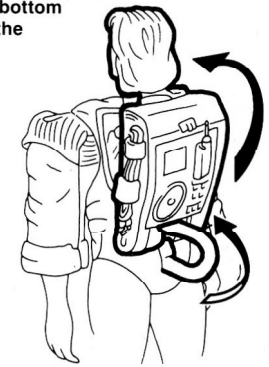

1. I'm a ferocious feline. Help me become the ace reporter April O'Neil.

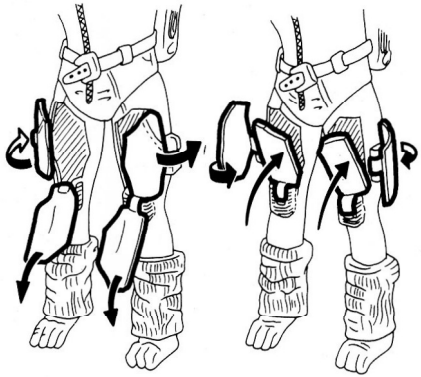

2. To switch mutant feline head to April's human head, pull backpack open, lift and rotate neck, and push it down to lock head into position.
Note: Firmly pull April's head backward to help open backpack.

3. Tuck tail into hole at bottom of backpack and close the backpack.

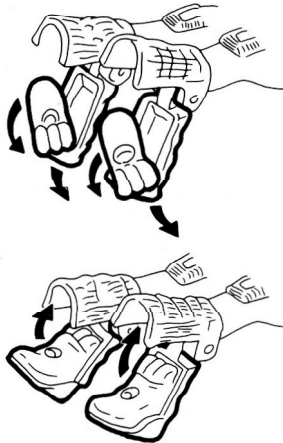

4. To switch ferocious cat claws to April's human hands, lift open her sleeves above cuff, rotate out human hands, and close sleeves.

5. Push feline fur on thighs down by pressing down on tabs at the knees, and press tabs at the side of the thighs to the side to swing out protective pads.

7. Pull back her talon-scratching cat claws, rotate claws to reveal her nifty news shoes, and close ankles.

6. Lift feline fur back up into place and cover with protective pads.

8. Now I'm the ace news reporter April O'Neil. Any words for the morning edition? To help me become the mutant ferocious feline just reverse the above steps or reference inside panel on package.

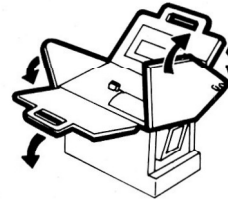

TO MUTATE APRIL'S CLAMP ON CLAWS:

- Slip both clamp on claws over April's hands as shown.
- Slide button forward to mutate from paw to tiger claw.

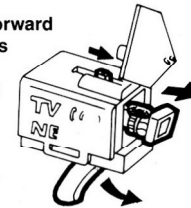

TO MUTATE APRIL'S VIDEO BAG:

- Fold down top side panels of hand bag and snap down into position.
- Fold down one peaked end panel and snap down into position. Opposite end panel rotates clockwise up into shield position.

- Slide button on top forward to expose camera lens and microphone.
- Flip down grip/handle on bottom to complete mutation from video bag to hi-tech video camera.

Please Note:

- Never force limbs into position. If parts don't fit comfortably, you may have missed a step. Always keep the limbs tucked in, positioned close to body.
- The enclosed mutation chart explains the evolution of these real mutatin' Mutants.
- Don't forget being a mutant master takes practice. The more you mutate, the better you become.
